---

Greta E. Noland builds and manages global patent portfolios for clients in the biotechnology and pharmaceutical industries. As a component of her portfolio management, Ms. Noland represents clients in interference and appeal proceedings in the United States, and guides clients through opposition, appeal, conflict and revocation proceedings in other countries. She also frequently performs due diligence analyses for intellectual property transactions and public stock offerings. By virtue of working for academic, not-for-profit, private and public entities, her advice encompasses many perspectives important for product life cycle management. Ms. Noland achieves clients' goals by delivering creative, attentive service molded by over twenty years of experience in the field.

### Practices
