General Hiring Criteria An engineering or other scientific degree qualifying the candidate to take the U.S. Patent and Trademark Office bar exam is generally required for entry-level patent associate positions. The firm will also consider exceptional candidates who lack technical degrees for the firm's patent litigation, trademark and copyright practice.

Diversity & Inclusion

Organization Narrative

Marshall, Gerstein & Borun LLP has over 90 attorneys, highly qualified patent agents, and technical specialists, all dedicated to providing superior intellectual property counseling. We practice prosecution and litigation in all areas of intellectual property law. We litigate nationwide, primarily within the federal court system, and handle patent and trademark registrations, oppositions, cancellations and inter partes review for our clients in the United States and foreign patent and trademark offices.

Our trademark attorneys provide clients with practical advice on the risks and advantages of branding objectives and assist with clearing, registering and protecting trademarks in the U.S. domestic market and around the globe. We also work with many clients with respect to copyright issues, assisting them to develop an integrated strategy for protecting and maximizing the value of their creative works, whether in the latest digital media or more traditional artistic, literary, or musical genres. We handle both trademark and copyright licensing and transactions. We also have considerable experience with domain name disputes and have achieved success for many clients in arbitration proceedings.

Our attorneys are not only lawyers, but also scientists and engineers. Most hold degrees in mechanical, electrical, chemical or computer engineering, and in chemistry and the biological sciences. Several hold advanced degrees in medicine, molecular biology or chemistry.

Our practice encompasses all areas of technology, but we are particularly noted for our experience in the chemical, electrical, mechanical and biotechnology arts. Because technology is so important to our practice, we generally require entry-level associate candidates to have an undergraduate degree in science or engineering. Candidates must also possess strong writing ability and an excellent academic background demonstrated by exceptional grades and participation in

moot court, law review, or other extracurricular activities. Prior work experience in patent litigation and/or in the science/engineering fields strengthens an applicant's candidacy.

Interested candidates may send their resume, transcripts and writing samples to Marshall, Gerstein & Borun LLP, to the attention of Michele Gudaitis, Recruiting Coordinator, 233 South Wacker Drive, 6300 Willis Tower, Chicago, Illinois 60606-6357. Resumes may be e-mailed to mgudaitis@marshallip.com or faxed to 312-474-0448.
