

Randall G. Rueth

Partner and Chair, Electrical & Computer Technologies

Tel 312.474.6602
rrueth@marshallip.com

For a wide range of clients innovating in electronics, software products and processes, e-commerce and the insurance and financial services industries, Randall G. Rueth advances and protects the value of their technologies through skillful prosecution work, insightful analysis and opinions, as well as strategic counseling. He delivers a notable mix of skills: a quick technical understanding based on his training in electrical engineering and know-how on successfully applying his electrical engineering work within AT&T.

Mr. Rueth has been named an “IP Star” in *Managing IP's IP Stars Survey* (fka the *World IP Handbook and Survey*) since 2014.

Practices

- Patent Prosecution
- Post-Grant Patent Proceedings

Industries

- Artificial Intelligence
- Automotive & Transportation
- Cleantech & Renewables
- Electrical & Computer Technologies
- Insurance & Financial Services
- Internet & Cyberlaw
- Medical Devices

Recent Client Work

- Successfully obtained patent protecting specialized software to divide tasks and centralize pharmacy functions for a large national firm. The result was a major advantage for the company

because it allowed small town pharmacies to stay open 24 hours and redefined pharmacist roles to work more closely with customers.

- Gained patent for new and easier way to manage flexible spending accounts.
- Conducted worldwide patent search to assist financial services giant in navigating around pre-existing products so they could distinctively meet demand for new customer products and services.
- Secured patents for computer-aided cancer detection software used on x-ray machines.

Representative Experience

On behalf of Fortune 100 companies, Mr. Rueth has managed numerous global patents related to front-end and back-end inventions involving complex web-based product orders, tracking, distribution, and accounting.

He has gained patents for risk management companies regarding business transactions related to electronically perfecting premium finance agreements, business practice audits, and portfolio management.

Mr. Rueth has also handled matters in a wide variety of such products, systems and processes as:

- Computer software, architecture and networking
- Flash memory circuit design and fabrication
- Trading systems for financial products
- Telecommunications and switching architecture
- Modeling algorithms for pharmacy industry
- Internet applications and data management
- Healthcare information management software
- Extensible firmware interfaces for server networks
- Database management software
- Process control systems
- Electronic gaming technology
- e-commerce system architectures and business processes
- GPS navigational systems
- Medical imaging systems/software/methods in various modalities including X-Ray, 3D Computed Tomography, and Ultrasound
- Successfully obtained patent protecting specialized software to divide tasks and centralize pharmacy functions for a large national firm. The result was a major advantage for the company because it allowed small town pharmacies to stay open 24 hours and redefined pharmacist roles to work more closely with customers

Background and Credentials

Randall G. Rueth's varied experience also includes domestic and international patent portfolio management, patent validity and infringement analyses, due diligence analysis of patent portfolios, reexamination and opposition practice, and pre-litigation management of patent disputes. Mr. Rueth is a strong leader who serves as Chair of the Firm's Electrical & Computer Technologies Practice Group and Chair of the Firm's Strategic Planning Committee.

His blend of skills and experience lets him do high-quality work efficiently so that the result is a good value for clients. The most satisfying element, however, comes when he can generate important benefits for them by opening opportunities from their innovations.

Prior to joining the Firm, he was a patent attorney with a patent litigation firm in Chicago.

He worked at AT&T from 1990 to 1995 as an electrical engineer and in technical sales. While there, he received AT&T's Engineering Achievement Award and AT&T's Sales Manager of the Year Award.

Mr. Rueth graduated from DePaul University College of Law where he received his J.D. degree in May 1998. He graduated from University of Illinois in 1990 with a B.S. in electrical engineering and Western Illinois University in 1988 with a B.S., *cum laude*, in mathematics.

Education

- DePaul University College of Law (J.D.)
- University of Illinois, Urbana-Champaign (B.S.)
 - Electrical Engineering
- Western Illinois University (B.S., *cum laude*)
 - Mathematics

Bar Admissions

- Illinois
- U.S. District Court, Northern District of Illinois
- U.S. Patent and Trademark Office
