

Daniel Chung

Technical Specialist

Tel 312.423.3465
dchung@marshallip.com

Daniel is a Technical Specialist within Marshall Gerstein's Electrical & Computer Technologies Group. He assists in drafting provisional, non-provisional, continuation, and divisional patent applications, conducts interviews with patent examiners, and performs patent searches.

Outside of his technical and analytical approach to client work, Daniel enjoys reading and playing sports such as soccer, basketball, and football.

Practices

- Patent Prosecution

Industries

- Electrical & Computer Technologies

Representative Experience

- Computer engineering
- Software
- Artificial intelligence
- Cryptography
- Medical devices
- Statistical analysis
- Databases
- Token systems
- Financial technology

Background and Credentials

Daniel studied computer engineering, statistics, and computational science as an undergraduate at the University of Illinois, Urbana Champaign. He is well versed in the programming languages Python, R, and C++. Prior to joining Marshall Gerstein, Daniel served as a Patent Engineer for an international law firm where he developed inventive concepts to enhance patentability, responded to foreign office actions, and drafted legal claims.

Daniel is fluent in both English and Korean.

Education

- University of Illinois, Urbana-Champaign (B.S., *with highest honors*)
 - Computer Engineering
- University of Illinois, Urbana-Champaign (B.S., *with highest distinction*)
 - Statistics

Community and Professional Involvement

- Institute of Electrical and Electronics Engineers (IEEE)
- Eta Kappa Nu Electrical and Computer Engineering Society
